Carrer Objective

Dedicated Computer Engineering student pursuing B-Tech with strong analytical and programming skills. Looking for opportunities to apply technical knowledge, gain industry experience, and contribute to innovative software and technology projects.

Skills

Technical: - C Programming, C++, Python, Java, JavaScript, DBMS, HTML, CSS, Web Development, Php, Iot.

Tools: - VS Code, Turbo C/C++, MySQL, MS word, Canva, PowerPoint, Inshort, Edits, VN.

Soft Skills: - Communication, Teamwork, Leadership, Project Management, Problem Solving, Video Editing.

Education

B-Tech in Computer Engineering, *Gandhinagar University, Gujarat*
SGPA – 8.30

Sept 2025 - 2028

Diploma, *VPMP Polytechnic Affiliated by GTU*
CGPA – 8.78

Jun 2022 – May 2025

SSC, *St Mary's School, Ahmedabad*
GSEB Percentile - 71.69

Jun2012 – March 2022

Internship

360 DESINGING

June 2024 – July 2024 | Ahmedabad

Designed and developed a Lecture Management System that allows faculty to upload paid lecture videos and students to access learning resources through secure accounts. Learned full-stack development concepts, project structuring, user management, and payment-based feature integration.

BRAINY BEAM

May 2023 – 15 days | Ahmedabad

Undertook a short-term internship to build foundational technical skills in programming and development. Learned the basics of coding structure, problem-solving, and creating user-friendly interfaces.

Projects

1. Cousify – Lecture Management System

Summary:

Developed a full-stack lecture management platform for students and faculty members with secure account creation and login

functionality. Faculty members can upload lecture videos and provide paid course access, while students can access educational content through the platform.

Tools Used: HTML, CSS, JavaScript, Database Management System, VS Code

2. Personal Portfolio Website

Summary:

Designed and developed a personal portfolio website showcasing skills, projects, education, and contact details with a responsive and user-friendly interface. Implemented smooth navigation and interactive sections for better user experience.

Tools Used: HTML, CSS, JavaScript, VS Code

3. To-Do List Application

Summary:

Created a simple task management application that allows users to add, update, and delete daily tasks efficiently. The project helped in understanding basic application logic and dynamic user interaction.

Tools Used: HTML, CSS, JavaScript, VS Code

4. Memeraki Art Shop Website Clone

Summary:

Developed a front-end clone of the Memeraki Art Shop website to practice website designing, layout structuring, and responsive web development. recreating aesthetic web elements.

Tools Used: HTML, CSS, JavaScript, VS Code

5. IoT-Enabled Soil Irrigation

Summary:

Built a smart irrigation system that monitors soil moisture and automatically controls water supply, helping conserve water and improve crop health through IoT-based automation.

Tools Used: Arduino IDE, Arduino Uno, Soil Moisture Sensor, Relay Module, Water Pump, Embedded C/C++, Breadboard, Jumper Wires.

Certificates

- **Tata Forage** – Cybersecurity Analyst Job Simulation
- **International Hackathon 360° 3.0** – First Round Participant
- **International Hackathon 360° 3.0** – Final Round Participant
- **Foundation Course on Green Skills & AI** – Skills4Future Program supported by All India Council for Technical Education, Shell plc, and Edunet Foundation
- **Full HTML Course** – Royal Technosoft Oracle University

Achievements & Leaderships

- **Stage Committee Member** for college annual and cultural events.
- **Decoration Team Member** for college Tech Fest activities.

- **Active Student Council** Member during college events.
- **University-level Sports**, Team Member, demonstrating teamwork, discipline skills.
- **Developed strong** leadership, communication, teamwork, and event management abilities through active participation in college committees and activities.

Languages

English, Hindi, Gujarati, Marathi
